Hello! ☺

I am a graphic designer, visual artist & researcher. My approach is a combination of opposites: dramatic vs pragmatic, analysing & structuring vs immersing in chaos. Developing own poetic language and the system of metaphors leads to a visual outcome, flexible to fit various media.

▶ Education

- Royal Academy of Art (KABK), The Hague, B.A. Graphic Design 2012-2016
- Moscow State Academic Art College in memory of the year 1905, 2008-2012

▶ Prises/nominations

- "The Comfort of Control" (graduation project) nominated for Blink Youngblood Award by GOGBOT Festival, 2016
- "Artificial Intelligence never has a headache" (thesis) nominated for the KABK Bachelor Thesis award, 2016

▶ Work experience

☐ Institute of Network Cultures/PublishingLab, Amsterdam, intern from 17/09/2015 to 01/01/2016. Worked on research & prototyping for the "Spaces of Flow" app by UNStudio. Acquired skills: Team work on an interactive publication for iOS (iPad), paper and digital prototyping. Organizing and structuring content, working on the navigation of the app, meetings & presentations.
